

Traideal 1.0
Protocol
For Partner

Purpose

This protocol outlines the terms between ****[Partner Name/Entity]**** and Traideal 1.0 to facilitate successful collaboration, project oversight, and alignment between companies and consultants.

1. Roles and Responsibilities

Partner Responsibilities:

1. Act as a liaison between companies and consultants to ensure project alignment.
2. Identify challenges, propose tailored solutions, and monitor progress.
3. Support companies in resource allocation and execution of vision streams.

Traideal Responsibilities:

1. Provide tools, frameworks, and support to empower partners in their role.
2. Ensure transparent collaboration among companies, consultants, and partners.
3. Offer resources like performance tracking and wisdom sources to improve outcomes.

Company Responsibilities:

1. Share clear vision streams, project needs, and resource expectations.
2. Collaborate with partners to achieve success.

2. Confidentiality

Partners agree to keep all sensitive business insights, strategies, and resources confidential. Shared wisdom can be anonymized and distributed to improve the network.

3. Oversight and Execution

- Partners will oversee project timelines, milestones, and resource assignments.
- Performance will be reviewed with companies and consultants to ensure alignment with business goals.

4. Compensation

- Partners will be compensated for their facilitation and oversight role as per agreed terms.
- Payment will align with company deliverables and milestones tracked through Traideal systems.

5. Termination

Either party may terminate the agreement with a ****30-day notice****. All obligations related to confidentiality and work completed will remain binding.
